

HARVEY ROAD DAY NURSERY LIMITED

SUPPORTING CHILDREN WITH SPECIAL EDUCATIONAL NEEDS AND DISABILITIES

EYFS: 1.6, 3.67, 3.68

Harvey Road Day Nursery aims to have regard to the Special Educational Needs and Disabilities Code of Practice, which provides advice about how to carry out our statutory duties and identify, assess and make provision for children's special educational needs and disabilities.

We aim to provide welcoming and appropriate learning opportunities for all children.

- Children with special needs and disabilities like all other children, are admitted to the nursery after consultation between Parents/Carers and the Nursery Manager.
- Our aim is to provide for the developmental needs of each child in the group.
- All children in the group irrespective of their special needs and disabilities are encouraged wherever possible and appropriate to participate in all the group's activities.
- Our system of observation and record keeping, which operates in conjunction with Parents/Carers, enables us to monitor children's needs and progress on an individual basis.
- The needs and progress of children who have specialized needs are monitored by the Nursery's Special Educational Needs and disabilities Coordinators (SENDCO) who are currently Christine Hall and Laura Andrews.
- Our key person approach ensures that an adult is especially responsible for, and close to, a small group of children.
- We will work closely with Parents/Carers of all children to ensure that.
- We draw upon the Parents/Carers' knowledge and expertise when planning provision for their child.
- The child's progress and achievements are shared and discussed with Parents/Carers on a regular basis.
- Parents/Carers know the identity of Special Educational Needs and Disabilities Coordinators.
- It is felt that the child's needs cannot be met without additional resources, funding will be sought to ensure that provision is appropriate to their needs.
- We will work closely with relevant professionals and agencies.
- Staff will attend whenever possible training on special needs.

Graduated Response to Special Educational Needs and Disabilities:

The nursery will take the following steps to help children with special educational needs and disabilities.

1. *Early Years Action*

- The Nursery will take responsibility for providing for the identified needs of the child.
- An individual Child Plan (ICP) will be developed.

2. *Early Years Action Plus*

- The SENCO may need to seek advice and support from external agencies.
- Request for statutory assessment.

Early Years Action

The following steps will be taken when the key worker or Parents/Carers have concerns about a child who, despite appropriate early educational experiences:

- Makes little or no progress;
- Works at levels significantly below those expected of a child of similar age;
- Presents persistent emotional and/or behavioural difficulties;
- Has sensory or physical problems;
- Has communication and/or interaction difficulties.

Once a child has been identified (staff may use a checklist to assist in this process), the key worker and SENDCO will:

- Consult with and agree the need for further support with Parents/Carers;
- Collect all know information about the child;
- Seek new or additional information from Parents/Carers;
- Involve and support Parents/Carers as much as possible;
- Record action in an Individual Child Plan.

Next Steps

We will use the Next Steps system for children with SEND, however we try and differentiate a developmental next step along with a SEND next step. With parental permission and support, we work on these Next Steps with SEND children, using ICP's as a tool to break own each next step. We also use running records and observations to monitor and document progress. If there is no improvement, we may carry out a EHCP with parent's permission or seek advice from our designated outside advisor Ann Ackers.
